ASSEMBLY INSTRUCTIONS

- Remove the top rail from the stand - this is done by the top rail screw (shown in Figure 1).
- Remove the top rail from the stand by pulling it out from the top of the stand (shown in Figure 2).
- Slide the bottom of the top rail into the bottom of the stand. Make sure that it is flush with the top of the stand (shown in Figure 3).
- Insert the bottom rail into the top of the stand (shown in Figure 4).
- Insert the top rail into the stand. Make sure that it is flush with the top of the stand (shown in Figure 5).
- Insert the top rail into the stand. Make sure that it is flush with the top of the stand (shown in Figure 6).
